Brand New Book ***** Print on Demand *****.David Hume (7 May 1711- 25 August 1776) was a Scottish philosopher, historian, economist, and essayist, known especially for his philosophical empiricism and skepticism. He is regarded as one of the most important figures in the history of Western philosophy and the Scottish Enlightenment. Hume is often grouped with John Locke, George Berkeley, and a handful of others as a British Empiricist. Beginning with his *A Treatise of Human Nature* (1739), Hume strove to create a total naturalistic science of man that examined the psychological basis of human nature. In stark opposition to the rationalists who preceded him, most notably Descartes, he concluded that desire rather than reason governed human behaviour, saying: Reason is, and ought only to be the slave of the passions. A prominent figure in the skeptical philosophical tradition and a strong empiricist, he argued against the existence of innate ideas, concluding instead that humans have knowledge only of things they directly experience. Thus he divides perceptions between strong and lively impressions or direct sensations and fainter ideas, which are copied from impressions. He developed the position that mental behaviour is governed by custom ; our use of induction, for example, is justified only by our idea of the constant conjunction of causes and effects. Hume held notoriously ambiguous views of Christianity, but he famously challenged the argument from design in his *Dialogues Concerning Natural Religion* (1779).
