Pages Number: 454 Publisher: People's Health Publishing House Pub. Date :2007-08. 2006 In September, the Ministry of Health was held in Shenyang office materials colleges and universities across the country the revision of teaching materials for adult education conference. this meeting of the clinical professional adult education (specialist) made a material revision of the new objectives and requirements. That the materials in the arrangement of contents is necessary to pay attention to full-time higher education with the same level of convergence of basic materials. but also strive to reflect the characteristics of adult education; in content emphasis on basic theory, basic knowledge and basic skills, focusing on practical. This material is based on the spirit of the meeting prepared by the Organization. The teaching materials from the traditional basic immunology, medical microbiology and Parasitology of three parts, and appropriately increase the proportion of basic immunology section. In the content layout has made some adjustments, some of the basic immunology, the immune organ, immune cells and cytokine together into the immune system, a chapter written; the innate immune response...
