CD-Audio. Book Condition: New. Not Signed; Description: From the dawn of time, Man has cherished the hope he could achieve a greater freedom. That hope, articulated by the greatest religious leaders across the centuries, has time and again renewed his strength to face the future. But with no practical means to convert hope to reality, the goal of a greater freedom remained, for most if not all, a distant and unattainable dream. Then, with the onset of the twentieth century, came the rapid and unprecedented advance of the physical sciences. Yet, at the same time, these sciences limited their research to the material world, ignoring or even denying the existence of the human soul. Such was the backdrop of L. Ron Hubbard's 25-year quest to solve the riddle of Man. Applying the tools and methodology of twentieth-century science to the accumulated knowledge from thousands of years of religious teachings, Ron sought an understanding of exactly who and what Man is. Then, in 1952, he arrived at a historic discovery. With demonstrable proofs, rather than mere belief, he established that there is indeed an immortal spirit with infinite survival power-an awareness of awareness unit that is the individual himself. Moreover, by these same scientific methods, L. Ron Hubbard further discovered that he could trace the life of this awareness of awareness unit .life after life after life. These remarkable discoveries signified no less than the long-sought meeting ground of science and religion. And with that, thousands of years of belief in the field of religion materialized into an actuality which any individual can realize in the here and now. So was born a new religion, the world's first wholly practical religion-Scientology. book.
