### Reviews

*This book may be worth buying. I have read and i am confident that i am going to planning to go through once more once again in the future. Its been written in an exceptionally easy way and it is simply soon after i finished reading this publication in which actually altered me, modify the way i believe.*

On behalf of the ICES 2001 Conference Committee, it is our pleasure to present to you the proceedings of the fourth International Conference on Evolvable Systems: From Biology to Hardware, ICES 2001, held in Tokyo, Japan, on 3-5 October 2001, addressing the latest developments and discussing challenges facing the field of evolvable systems. The idea of evolving machines, whose origins can be traced back to the cybernetics movement of the 1940s and the 1950s, has recently re-emerged in the form of the nascent field of bio-inspired systems and evolvable hardware. Following the workshop, Towards Evolvable Hardware, which took place in Lausanne, Switzerland, in October 1995, the First International Conference on Evolvable Systems: From Biology to Hardware (ICES96), was held at the Electrotechnical Laboratory (MITI), Tsukuba, Japan, in October 1996. The second and the third International Conferences on Evolvable Systems: From Biology to Hardware (ICES98 and ICES 2000) were respectively held in Lausanne in September 1998, and in Edinburgh in April 2000. Following the success of these past events, ICES 2001 was dedicated to the promotion and advancement of all aspects of evolvable systems, including hardware, software, algorithms, and applications. By bringing together researchers who use biologically inspired concepts to implement real systems in artificial intelligence, artificial life, robotics, VLSI design, and related domains, ICES 2001 reunited this burgeoning community. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
